

JOURNAL OF THE AUSTRALASIAN CERAMIC SOCIETY

J. AUST. CERAM. SOC., VOLUME 36, NUMBER 2, (2000)

- 1 Novel Gel-Forming Process for Near Shape Ceramic Component Production
G. V. Franks, S. B. Johnson and D. E. Dunstan
- 7 Ceramic membrane Technologies for Gas Separation
S. P. S. Badwal and F. T. Ciacchi
- 13 Performance Characteristics of Porous Alumina Ceramic Structures
B. A. Latella and T. Liu
- 23 The Environmental Impact of the Ceramic Tile Industry: New Approaches to the Management in Europe
C. Palmonari and G. Timellini
- 35 ISO/IEC 17025 – A new Standard for Laboratories
R. Robertson, I. Waples and J. Wilson
- 45 Physico-Chemical Effects of China Clay Suspension Over-Deflocculation
J. W. Mitchell, B. R. Heywood and M. E. Twentyman
- 53 Preliminary Investigations into Crystal Growth in Ceramic Glazes
P. Wilson and D. Whitfield
- 59 Statistical Experimental Design for refractory Coatings
J. A. McKinnon, O. C. Standard and D. W. Hughes
- 65 Optimisation of Ceramic Dental Bridges
K. A. Proos, G. Steven, M. V. Swain and J. Ironside
- 77 Investigation of Sub-Surface Damage during Dry Wear of Alumina using Focused Ion-Beam Milling
S. Chaiwan, U. Stiefel, M. Hoffman and P. Munroe
- 83 Mechanical and Wear Characteristics of Zirconia-Alumina-SiC Platelet Composites
X. Miao, B. K. Milthorpe, W. E. Lee and W. M. Rainforth
- 91 Advanced Ceramics via Powder Metallurgy Route: Novel Synthesis of ‘High Phase-Purity’ Mg_2SnO_4 from Metallic Precursors
Abdul-Majeed Azad

- 97 Fracture Toughness Improvement of Alumina with Elongated Grains
Z. P. Xie, T. Liu, Y. Huanhg and Y.-B. Cheng
- 103 Microscopic Features of Hydroxyapatite Coatings Deposited by a Modified Sol-Gel Technique
P. Parakala, R. Clegg and M. Wei
- 109 Encapsulation of Biological Species in Sol-Gel Matrices
K. S. Finnie, J. R. Bartlett and J. L. Woolfrey
- 115 Synthesis of Nan-Scale Ca- α SiAlON powders by Carbothermal Reduction-Nitration
M. Hotta, C. Zhang, K. Komeya, J. Tatami, T. Meguro and Y.-B. Cheng
- 121 Synthesis of Fine Zirconium nitride Powders by Floating-Type Reduction-Nitridation of Zirconia Powder
T. Watanabe, H. Iihoshi, T. Oshima, N. Hotta and T. Sasamoto
- 127 Mullite from Sillimanite: Influence of Different Additives
N. Quaranta, M. Caligaris, E. Benavidez, H. Lopez and R. Caligaris
- 133 Preparation and Electrical Properties of Sintered Bodies with Monophase Spinel-Type Oxides $Mn_{(1.5-0.5x)}Co_{(1+0.5x)}Ni_{0.5}O_4(0 \leq x \leq 1)$
T. Yokoyama, T. Meguro, T. Morita, Y. Abe, J. Tatami, K. Komeya and Y. Kumashiro
- 139 the Developmental of Zirconia Membrane Oxygen Separation Technology
F. T. Ciacchi, S. P. S. Badwell and V. Zelizko
- 145 Gelcasting of SiC/Si Preparation of Silicon Nitride Bonded Silicon Carbide
Z. P. Xie, J. W. Lu, Y. Huang and Y.-B. Cheng
- 153 Poling of Piezoelectric Ceramics
P. Bryant and T. Palmer
- 157 A personal View: Applicability of Solid Oxide Fuel Cell Systems and the Long Term Impact on Ceramic R&D
H. Barten
