

JOURNAL  
OF THE  
AUSTRALASIAN  
CERAMIC SOCIETY

J. AUST. CERAM. SOC. VOLUME 41, NUMBER 2, (2005)

- 1 Characterisation of Hydroxyapatite and Substituted Hydroxyapatites for Bone Grafting  
**N. Patel, S. M. Best and W. Bonfield**
- 23 Principles of Design and Synthesis of Iron Oxide Magnetic Nanoparticles for Biomedical Applications  
**L.A Harris J.S Riffle and T.G. St Pierre**
- 43 BaTiO<sub>3</sub>-Coated TiO<sub>2</sub> Working Electrodes for use in Dye-Sensitised Solar Cells  
**D. Menzies, R.Cervini, Q. Dai, M. Lewis, N. Brack, Y. -B Cheng, G.P.Simon, L.Spicca**
- 48 The Effects of the Rate of Kiln Firing on Crystal Development in High-Temperature Ceramic Glazes  
**P. Wilson**
- 52 Neutron Diffraction Comparison of a Bone Derived Hydroxyapatite Bioceramic and Synthetic Hydroxyapatite  
**K. Lewis, C. Kealley, M. Elcombe, A. van Riessen, and B. Ben-Nissan**
- 56 Mechanical Property Development in Isothermally Sintered Mechanical Blends of Hydroxyapatite and Fluorapatite  
**K. A. Bhadang, K.A. Gross**
- 68 Membership Form
- 69 Instructions to Authors
