

# JOURNAL OF THE AUSTRALASIAN CERAMIC SOCIETY

J. AUST. CERAM. SOC., VOLUME 40, NUMBER 2, (2004)

Effect of Annealing Condition on the Properties of Pb (Zr, Ti, Mg, Zn, Nb)  
O<sub>3</sub> Ceramic  
**C.H. WANG**

Fabrication and Fracture Behaviour of Silicon Carbide Composites  
Containing Chopped Tyranno<sup>®</sup> Si-Al-C Fibre  
**K. Itatani, T. Tanaka, H. Suemasu, A. Nozue and I. J. Davies**

Environmentally Friendly Tape Casting for Porous Alumina-Zirconia  
Substrate  
**A. Jaroenworuluck, N. Kosachan and R. Stevens**

Characterisation of RF-Sputtered Doped Lanthanum Gallate Thin Films for  
Solid Oxide Fuel Cell Applications  
**A. Singh, G. Jakovidis and J. R. Sellar**

Properties of Liquid Phase Pressureless Sintered SiC-Based Materials  
Obtained without Powder Bed  
**G. Magnani and L. Beaulardi**

Nanostructured Working Electrodes in Dye-Sensitised Solar Cells – An  
Overview  
**D. Menzies, Y. -B. Cheng, G. P. Simon and L. Spiccia**

Combustion Synthesis of AlN-SiC Solid Solutions  
**H. Wang, D. O. Northwood, J. Han and S. Du**

Mechanical property development in isothermally sintered mechanical blends  
of hydroxyapatite and fluorapatite  
**K. A. Bhadang and K. A. Gross**

Bio-inspired Ceramic Structures: From Invertebrate Marine Skeletons to  
Biomimetic Crystal Engineering  
**D. Green**

High-Resolution Transmission Electron Microscopy Investigation of the  
Nanostructure of Nanocrystalline Pulsed Laser Deposition SnO<sub>2</sub> Thin Films  
**Z. Chen, J. K. L. Lai, C. H. Shek and H. Chen**

In-situ Reinforced Li-sialon Ceramics by a New Processing Strategy  
**H. Peng, Z. J. Shen and M. Nygren**
